

Sinclair Broadcasting's decision to air an anti-Kerry documentary is the right of Free Press and not the ridiculous "free press" website. Speaking of "Free" Press, I am sick of the liberal biased Media,deliberty trying to influence the election. I demand an investigation into the Forged Burkett Papers and all of CBS! This is a terrible crime, and has resulted in ~\$2B inf free advertising from the obviously biased, Media. I also demand an investigation of Kerry's Medals and the forgeries committed to get his silver star. You the FCC are to blame for allowing these candidates to run ads that are proven to be known lies! I also object violently to Michael Moore's movie Fahrenheit 9/11 that has so many lies and untruths that it should be classified as Propaganda!! What Sinclair is doing is certainly withing the bounds of the law,and you MUST REJECT ALL attempts to deliberty air proven false movies,pseudo documentaries, ads and commentaries! It is about time Kerry answered these questions,disclosed his form 180 and provide all diaries and other forms of documnetation! The truth MUST be told ONCE and for all!! IT was Kerry who divided us in the 70's and here we are letting him do it again!!!This time, though the media's help he is using the same exact tactics he did back then!!! All of these "liars" and collusionistsmust be shown for who they and Kerry really are! This must be done before the election if we are to save ourselves from electing an idiot who will be impeached as soon as he takes office and we are left with a empty suited "Dan Quayle" for our president!!!! Kerry will be another Jimmy (Analysis Paralysis) Carter!
